DESCRIPTION

A bubble suspended within a large sphere...
This sophisticated structure evokes a sense of levitation in mid-air. The outer handblown glass sphere features a glossy transparent or smoke grey finish, while the inner glass core comes in a matte finish.

TECH. DESCRIPTION

The light comprises a matte glass core with G9 socket. The core is suspended from three steel cables attached to the ceiling by means of brackets. The cables also support a metal ring from which the outer glass sphere is suspended. The electrical connection is made in the ceiling canopy, which houses an insulated box for double insulation.
