GROWING VASES LIGHTING SCULPTURE

DESIGNER: Nendo
YEAR OF DESIGN: 2012
MATERIAL: Hand Blown Bohemian Crystal Glass

Nendo and Lasvit collaborated to create an art piece, which conveys the quixotic appeal of glass as something impractical and incomplete yet provides a breath of fresh air and opens up new possibilities. Created with Czech Bohemian glass, this lighting installation of whimsical nature, alludes to a whimsical glass forest filled with abstract flowers and branches. The principle of a flower and a vase here is turned upside down. By turning the pipes into the flowers and branches and by blowing the glass into a vase, suddenly the vases are blooming from flowers instead of flowers blooming in vases! Growing Vases breaks conventions and symbolises the birth of life.
