DESCRIPTION

"Shells, and particularly mussels, always fascinated me with their simple, yet sophisticated, shape. Each is an original but together they form interesting compositions. They carry a sense of elegance and organic nature, as well as a bit of mystery." says Václav Mlynár, designer of the collection and BOMMA creative director

TECH. DESCRIPTION

The Mussels Collection is made by our in-house developed, pressed glass technology. Any small bubbles, nonmelts and irregularities in the glass are both proof and a characteristic feature of this unique glassmaking process. The glass parts of Mussels are handpainted, so the intensity of color may vary slightly.
