

# DATASHEET

Name: **PRISMA**  
Type: Floor Lamp  
Designed by: Lucie Koldova

## DESCRIPTION

The dominant feature of the Prisma collection is an extravagant metal fixture with a distinctive finish. Classic handblown glass spheres are anchored to either one or both ends of a robust decagonal metal prism that lends the collection its name. The shape in combination with the striking surface reflect light at different and unexpected angles, like a prism. With a choice of three different elegant finishes - brushed steel, galvanized yellow zinc gloss, or galvanized yellow zinc matte - the light is a bold artistic object in the interior offering unique vertical, horizontal, and diagonal compositions with subtle colourful reflections.

## TECH. DESCRIPTION

The technologies applied in production follow in the centuries-old tradition and experience of master glassmakers. The precision crafting of handblown glass instils distinctive, enduring character and outstanding quality in all BROKIS products. The glass lampshades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mould.

## CERTIFICATES
