

FLORA CHANDELIER

PRODUCT SPECIFICATION

DESCRIPTION

The Flora Chandelier is a modern take on the glass and metal chandelier style.

Designed by Orly Meyer – AM Studio in collaboration with Canadian blown glass artist, Karli Sears.

16 arms are dropping down from a round ceiling base and facing out in 2 stages creating two circles of glowing glasses. End of each rod sits 3 pieces of hand blown glass plate and orbs that shine light in different angles. Can be customized in various colour options.

The Flora Chandelier is perfect above the dining table, family/living room, library, foyer or reception spaces in addition to hospitality spaces.

The FLORA Chandelier can be fully customized – amount of arms, total drop, glass color and finishes.

FLORA CHANDELIER

CUSTOM LIGHTING & GLASS
