

## DESCRIPTION

---

The ARYA Chandelier is a modern take on the glass and metal chandelier style with a twist of industrial flair. Designed by Orly Meyer- AM Studio in collaboration with Canadian blown glass artist, Karli Sears.

16 arms dropping down in two stages from a round ceiling base creating two circles of arms carrying glass globes. The first stage of circles shows 8 L-shaped arms dropping 23" from the ceiling to create a circle of 42"D. The second stage is showing additional 8 L-shape arms dropping down 38" from the ceiling and creating a smaller circle of 30"D. Total of 16 arms are carrying hand blown glasses that shine light in different angles. The black electrical cords are exposed to emphasize the Industrial Glam of the chandelier.

ARYA chandelier can be customized in various colour options, sizes, amount of arms, finishes and light color temperature. The Arya Chandelier is perfect above the dining table, hanging in the family/living room, library, and foyer or reception spaces in addition to Hospitality and Commercial applications.
