

DESCRIPTION

AM Studio has been using LED lighting in a variety of creative and exciting applications. Over the last decade, LEDs have become increasingly popular for their energy efficiency, value and bright, radiant light. Because LEDs require minimal maintenance, they are especially effective for fixtures on higher ceilings.

The Flats pendants reflect the modern and sleek properties of LED lighting while adding a bold, artistic statement to any space. As a series, the formed acrylic pendants play off of each other's varied shapes. Create contrast and impact by mixing the different shapes side by side, hanging them as a pair or separately. The Flats are available in black, white, red, brown and green.

TECHNICAL SPECS
