

DESIGNER: *Rene Roubicek*

YEAR OF DESIGN: 2013

Glass: Hand Blown Bohemian Crystal Glass

The “And Why Not!” chandelier designed by Rene Roubicek for LAsvit refers to his lifelong experimentation and searching of composition and forms incarnated in glass. The chandelier’s emotionally intense sculptural form resembles a flash and the design is based on the idea of dynamic abstraction. Light gliding on large smoothly polished surfaces while absorbed by the mass of the glass creates a unique atmosphere. Perfect for any space that requires energetic attention.

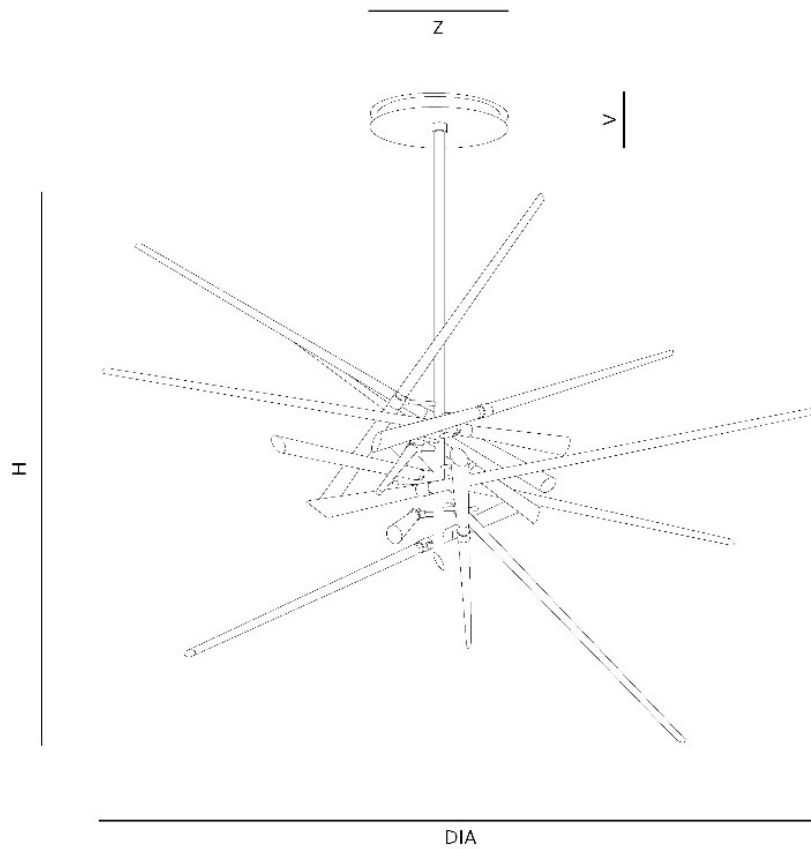

TECHNICAL DETAILS “AND WHY NOT”

Type	CE	UL
Light Source	7X G4, 20W, 2800K Lm 300	7x G4 capsule, 20W, 3000k Lm 310
Input voltage	230VAC	110AC
Rated Power	140W	140W
Ballast	Trailing edge	
Surface finish	Polished st. steel	
Cord length	-	
Prot. rating	IP 20	
Safety class	CLASS I
