FOR PENDANT LIGHT FIXTURES

## OLLO pendant without canopy

Design by  
Václav Mlynář

### Handmade glass attributes

All Bomma products are hand-made from mouth-blown lead-free crystal. Therefore any small bubbles, non-melts and irregularities in the glass are both proof and a characteristic feature of this traditional craft.

### LIGHTING DESCRIPTION

|                  |                                                                                                   |
|------------------|---------------------------------------------------------------------------------------------------|
| Size             | mounting dia. 65mm/2.5 in, glass dia. 150mm/5.9 in<br>overall 150mm/5.9 in, height 56 mm / 2.2 in |
| Mounting         | brushed bronze, brushed gold, brushed silver                                                      |
| Material         | stainless steel                                                                                   |
| Glass            | cast lead-free crystal glass                                                                      |
| Glass colour     | crystal clear                                                                                     |
| Cable            | transparent 2,5 – 15 m (max) / 98,4 – 590,5 inch (max)<br>per specific project                    |
| Weight           | +1.6 kg / 3.5 lb                                                                                  |
| Constant current | 50 – 400 mA / 1 – 10 W                                                                            |
| Class            | III. EU / II. USA                                                                                 |

### LIGHT SOURCE

|                   |                                     |
|-------------------|-------------------------------------|
| Type              | LED module ring – 10W               |
| Base              | custom LUMILEDS LUXEON 3030 HE Plus |
| Temperature       | selection 2200 / 2700 / 3200 K      |
| Luminous Flux     | up to 1960 lm                       |
| Luminous Efficacy | 196 lm/W                            |
| Color index       | RA 90+                              |
| Dimming           | dimnable 5 – 100% @ all standards   |

### PACKAGING

|                                                                                                                                                             |           |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
