

DESIGNER: Gabriela Nahlikova
Glass: Hand Blown Technical Glass

This clear “pleated” lampshades with right angle cranked legs stand in contrast with the ornamental composition of shadows that appear on the walls after you switch on the light. The classical design together with an optical projection merges into a “romantic functionalism”. The reflections of the light on the sharp-cut edges of glass and shadows, are creating an outstanding atmosphere and sophisticated mood of an interior. The shadow and light create an optical illusion. Light along with the translucent texture of the glass and striking expressiveness create a play between light and shadow.
