## 19 PYRITE PENDANTS RECTANGULAR CHANDELIER

### DESCRIPTION

The BOMMA collection was inspired by pyrite, the golden fire-stone in the shape of a perfect cube, while the silver version of the shade reflects its inspiration in salt crystals. By blowing a molten organic substance into a precise cold form, the skilled hands of our glassmakers create a unique light fixture of elemental, yet perfect shape.

The gleaming surface of this hand-blown crystal cube is enclosed from three sides by a polished metal component in either silver or gold tones.

The Pyrite Collection excels in both exceptional design and top-quality materials. Easily combined, it invites you to create your own unique lighting constellations.
