

### **DESCRIPTION**

The Fiberglass Balls start with thin fiberglass strands (in white or amber) that are twirled around a hand-blown glass ball. A larger clear globe encapsulates the smaller ball, adding a quiet balance to the fixture. The glass balls come in 3 sizes and are suspended by thin wires that stem from a custom-made ceiling base. A versatile fixture that is suitable in a residence or a commercial application, and can be hung on low or high ceilings. Provides a great source of light that is dimmable for a softer ambiance.
